New Easy-Clean Plastic Finish on Tahoe, Sierra, DR2000, Mesa and Alpine

PROBLEM

Plastic Tahoe, Sierra, DR2000, Mesa and Alpine dispensers have a flat matte finish due to slight texturing of the plastic surface. This makes dust and grime difficult to completely clean off.

SOLUTION

Beta has had the molds for the plastic enclosures polished, so the enclosures will have a smooth, reflective plastic finish that is extremely easy to clean. Part numbers and pricing remain unchanged. From September 1st, all of these dispensers will be shipped from Santa Cruz with the new finish. It may take some time to use up stock in the UK and Australia of units with the old finish.
