

## FEATURES

- Heavy duty formula
- Contains chelating agents
- Non-foaming formula
- Contains tracer dye
- NSF

## BENEFITS

- Removes “tartar” soils
- Minimizes lime scale build-up
- Excellent for C.I.P. use
- Easy identification - safety
- Non-sodium formula

## RECOMMENDED USES

For C.I.P. cleaning of wine processing equipment and tanks.

## SPECIFICATIONS

**Color** : White with tan specs  
**Scent/Odor** : None added  
**Character** : Granular powder  
**Foam** : None

**pH use dilution** : > 13.0  
**Phosphorus content** : 0.8%  
**Approvals** : cRc

## IMPORTANT

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. It is also available on our website or from the distributor.

## PRODUCT DIRECTIONS

### EQUIPMENT TO USE

Measuring cup or scoop.

### DIRECTIONS TO USE

#### USE DILUTION:

1. Immediately after the tank is empty, flush thoroughly with lukewarm (100°-110°F) water until water runs clear.
2. Fill tank to predetermined level for cleaning, and add 1 lb.\* of product to each 50 gallons of water (100°-110°F).
3. Activate spray wash pump and nozzle. Wash for 10-15 minutes.
4. Rinse tank with potable water and drain.
5. Neutralize tank using a food grade acid.
6. Drain tank completely. Inspect for cleanliness.
7. Prior to next use, sanitize according to your normal procedures.

\*Concentration and use time may vary due to soil load and tank size. Do not use this product on aluminum or painted surfaces.

## PACKAGING

This product is available in 50 pound boxes (3182524) and 400 lb. drums (3325329).
