IMPORTANT

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. It is also available on our website or from the distributor.

PRODUCT DIRECTIONS

EQUIPMENT TO USE

Automatically dispensed at correct dilution rate from the Ultra Easy dispensing system.

DIRECTIONS TO USE

Dispense into spray bottle. USC33 should only be sprayed using a foaming trigger sprayer. Use with a clean cloth or sponge. Point the trigger sprayer at surface to be cleaned from a distance of 6 to 8 inches and pump as needed to apply enough foam to be worked over the whole surface. Immediately spread product across the surface. USC33 will begin to loosen soils immediately, but where stubborn soils exist, allow the product to stand for several minutes. Rinse off product with clean water either directly with shower hose, or with moistened cloth or sponge. Ensure no standing water is left on counter tops, floor tiles etc. Note: When cleaning floors position wet-floor signs around area to be cleaned. Floors will be slippery when wet or contaminated with foreign materials. Promptly clean up spills and foreign materials.
