

US Chemical
Private Label Laundry Program

U S Chemical's Private Label Laundry Program is designed to meet our customers' needs. We offer a complete line of quality and affordable laundry products available in your own private label. Imagine the value of having your own label on a complete offering of laundry products available only from you. These quality products combined with your label, service and reputation will build customer loyalty and brand recognition within your marketplace.

The advantages are numerous.....

- A product for every application.
- A complete selection of pack sizes.
- Included is an offering of Hyper - Concentrated products packed in 3100 mL environmentally friendly reduced packaging.
- An offering of economically priced products, available for cost sensitive customers.
- Using your logo, we design a label that complies with all regulations and provides you with your own laundry brand. No charge!
- To qualify you only need to meet U S Chemical's minimum order requirements, \$1,000 per order.
- Please allow 6-8 weeks for the first order. Subsequent orders require a 7 day lead time.

Some products are available with private case label only.*

NEXUS™ Premier Lock Out System

Break

Pack Size: 2/3100 mL*

Alkali Booster

This product is a hyper-concentrated alkaline builder which contains both water conditioners and iron inhibitors. This unique formula provides great grease fighting ability while handling the toughest water conditions including iron. ***3100 mL products are available with private case label only.**

Built Detergent

Pack Size: 2/3100 mL*

Combined Suds and Break

This product is a hyper-concentrated formula featuring highly active laundry builders and superior quality surfactants. Designed for all soil and water conditions, including iron, NEXUS Built Detergent offers unmatched levels of performance, convenience, and low use cost. ***3100 mL products are available with private case label only.**

Suds

Pack Size: 2/3100 mL*

Detergent

This product is a hyper-concentrated formula with a blend of superior quality detergent surfactants. This formulation provides excellent emulsification of soils and prevents their redeposition onto fabric. Designed for use in all water and soil conditions, NEXUS Suds exhibits outstanding cleaning ability at extremely low use rates. ***3100 mL products are available with private case label only.**

Suds EC

Pack Size: 2/3100 mL*

DfE Approved Detergent

This product is a highly active surfactant based laundry detergent that rapidly biodegrades in the environment. This formula provides excellent emulsification of soils and helps prevent soils from redepositing on fabric. This product is also DfE approved. ***3100 mL products are available with private case label only.**

Enzyme Suds EC

Pack Size: 2/3100 mL*

DfE Approved Detergent

This product is an enzyme detergent formulated with no harsh builders or solvents. Neutral pH, biodegradable surfactants and enzymes make this product gentle on fabrics and on the environment. This product is also DfE approved. ***3100 mL products are available with private case label only.**

Destainer

Pack Size: 2.5 gal.*

Bleach Whitener

This product is the highest quality concentration of liquid chlorinated destainer available for use in institutional laundries. It is produced to stringent manufacturing controls, ensuring the highest available chlorine content and maximum shelf life. When using the optional wall bracket, NEXUS Destainer can be "wall mounted" in conjunction with NEXUS laundry docking stations. ***2.5 gal. products are available with private case label only.**

Oxygen Bleach

Pack Size: 2/3100 mL*

Hydrogen Peroxide Bleach

This product is a versatile product that provides excellent cleaning ability, yet is safe to use on all types of colored and synthetic fabrics. Oxygen Bleach aids in the overall success of today's complicated laundry programs. ***3100 mL products are available with private case label only.**

Sour

Pack Size: 2/3100 mL*

Neutralizing Sour

This product is a hyper-concentrated formula that provides the most effective and economical results in applications where a separate sour is preferred. This product can be used with or without NEXUS Softener, and provides effective pH control, eliminates iron staining and prevents yellowing on all types of fabric. ***3100 mL products are available with private case label only.**

Sour / Soft

Pack Size: 2/3100 mL*

Combined Neutralizer and Softener

This product is a hyper-concentrated formula that provides the most effective and economical results where a combination sour and softener product is preferred. This unique Sour/Soft formulation has the ability to inhibit iron deposits, reducing the need for separate sour and softener. Formulated with optical brighteners. ***3100 mL products are available with private case label only.**

Softener

Pack Size: 2/3100 mL*

Softening Agent

This product is a hyper-concentrated formula that provides the most effective and economical results in applications where a separate softener is preferred. This product can be used with or without NEXUS Sour, providing the flexibility needed in many institutional settings. ***3100 mL products are available with private case label only.**

Premier LL Break

Alkali Booster for Institutional Laundry

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is a highly concentrated alkaline product. This liquid blend of alkaline builders, water sequestrants and soil suspension agents is designed to be used in combination with Liquid Laundry Suds for optimum cleaning efficiency.

Premier LL Break & Suds

High Performance Liquid Laundry Break and Suds Combination

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is a high quality built liquid detergent featuring a powerful combination of alkalinity and surfactants for superior results. It is designed for use in both health care and hospitality laundries. This product will work well in low and high temperature wash systems. It is designed for automatic injection into commercial laundry machines, and can be used on all washable fabrics.

Premier LL Suds

A Concentrated Laundry Detergent

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is a liquid detergent designed for use in combination with a recommended liquid laundry break in automated laundry dispensing systems. The combination of these products provides the ultimate in cleaning performance, economy and flexibility. It rapidly wets and penetrates cloth, lifts soil, emulsifies greases and oils and prevents soil redeposition.

Premier LL Destainer

Institutional Laundry Destaining Agent

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is a concentrated sodium hypochlorite solution for use in laundry bleaching. It is designed for automatic dispensing. This product will keep white fabrics free of stains and aid the overall cleaning program. It can also be used as a household bleach. However, care should be taken to reduce the level used as the strength is over twice that of normal household bleaches.

Premier LL Sour & Rust Remover

Concentrated Liquid Sour and Iron Stain Eliminator

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is specially designed to neutralize the alkaline residues of detergents, water hardness minerals, and iron in the rinse cycle of laundry programs. It can be used in any type of automatic laundry chemical feeding system. It prevents fabric harshness, excess wear and browning during ironing. It will also eliminate iron stains for superior laundry results.

Premier LL Softener

Concentrated Fabric Softener

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is a liquid cationic fabric softener for all types of laundry operations. It is highly concentrated to provide fluffy and soft fabric. This product is economical to use because it reduces the pulling and extraction time of loads, eliminates static, reduces sticking and increases comfort of all clothes and linens.

Premier LL Sour & Soft

Special Combination Softener and Souring Agent

Pack Size: 5 gal., 15 gal. and 55 gal.

This product combines three functional laundry steps in one easy to use combination product. It includes the highest quality souring agents, excellent cationic fabric softeners and optical brighteners to leave cloth fresh, clean, bright and soft. It should always be used in the final rinse of the laundry program and can be used in high or low temperature operations.

Premier LL Antichlor

Liquid Chlorine Neutralizer

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is an effective liquid anti-chlorine compound that prevents unwanted residual chlorine on treated fabric. It is capable of removing many reducible stains including iodine.

Premier LL Oxygen Bleach

Concentrated Hydrogen Peroxide Solution

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is a blend of oxygen bleaching agents specially formulated for use on synthetic fabrics and colored laundry, and may be used safely with enzyme presoaks or regular laundry detergents. Its exceptional mildness allows it to be added to the laundry during the filling operation. It can be used in all temperatures, but hot solutions do the best job of bleaching and cleaning.

LL Break & Suds

Heavy Duty Laundry Detergent

Pack Size: 5 gal. and 15 gal.

This product is a quality phosphate free liquid laundry break and suds combination. It is designed for those special laundry applications where a three product system can be used effectively. When used in conjunction with liquid laundry bleach and a laundry sour and softener, this product emulsifies and suspends tough soils, all in one easy step. The use of this product will provide whiter and brighter linens in all laundry operations.

LL Break

A Quality Institutional Laundry Break Concentrate

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is a concentrated alkaline break for use in automatic liquid dispensing systems. It can be used to boost cleaning effectiveness in any type of liquid laundry automatic feeding equipment. This product is a concentrated blend of high alkaline detergent builders, emulsifiers, water conditioners, and soil suspension agents. It is designed to be used in combination with a liquid laundry detergent for optimal cleaning efficiency.

LL Detergent

Liquid Laundry Detergent

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is an economical liquid detergent designed for use in automated laundry dispensing systems. This product provides the ultimate in cleaning performance and flexibility. It rapidly wets and penetrates cloth, lifts soil, emulsifies greases and oils and prevents soil redeposition.

Premier LL Destainer

Institutional Laundry Destaining Agent

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is a concentrated sodium hypochlorite solution for use in laundry bleaching. It is designed for automatic dispensing. This product will keep white fabrics free of stains and aid the overall cleaning program. It can also be used as a household bleach. However, care should be taken to reduce the level used as the strength is over twice that of normal household bleaches.

LL Sour & Soft

Special Combination Softener and Souring Agent

Pack Size: 5 gal., 15 gal. and 55 gal.

This product combines three functional laundry steps in one easy to use combination product. It includes the highest quality souring agents, excellent cationic fabric softeners and optical brighteners to leave cloth fresh, clean, bright and soft. It should always be used in the final rinse of the laundry program and can be used in high or low temperature operations.

LL Softener

Liquid Fabric Softener

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is a liquid cationic fabric softener for all types of laundry operations. It provides fluffy and soft fabric. This product is economical to use because it reduces the pulling and extraction time of loads, eliminates static and reduces sticking. Increases comfort of all clothes and linens.

LL Sour

A Concentrated Laundry Sour

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is specially designed to neutralize the alkaline residues of detergents, water hardness minerals, or iron in the rinse cycle of laundry programs. It can be used in any type of automatic laundry chemical feeding system. It prevents fabric harshness, excess wear and browning during ironing.

LL Oxygen Bleach

A Hydrogen Peroxide Solution

Pack Size: 5 gal., 15 gal. and 55 gal.

This product is an oxygen bleaching agent specially formulated for use on synthetic fabrics and colored laundry, and may be used safely with enzyme presoaks or regular laundry detergents. Its exceptional mildness allows it to be added to the laundry during the filling operation. This product can be used in all temperatures, but hot solutions do the best job of bleaching and cleaning.

Powdered Laundry Detergent

1/4 Cup Detergent

Pack Size: 25 lb. and 50 lb.

This product works perfectly in hard or soft water, hot or cold. It keeps dirt suspended in wash water, and requires no addition of bleach or softener for normal wash conditions. Gentle for all fabrics it leaves no irritating residue or scum on garments, towels, linens or baby clothes. It also contains special built-in whiteners and brighteners for whiter whites and brighter colors.
