Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. It is also available on our website or from the distributor.

PRODUCT DIRECTIONS

EQUIPMENT TO USE

Recommended automatic liquid laundry injection system.

DIRECTIONS TO USE

USE DILUTION: Concentrations will vary due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs.

1. Pre-sort laundry prior to wash.
2. Pre-soak or pre-spot laundry when necessary.
3. Place proper amount of laundry into laundry machine.
4. In wash cycle, feed a recommended liquid laundry break and liquid laundry suds or built detergent.
5. When bleaching, feed LIQUID OXY BLEACH II into the laundry machine.

NOTE: This product is most effective when used in hot water (150°-160°F).

6. When souring and/or softening, feed a recommended sour and softener into the laundry machine. Works best in the final rinse cycle. A final pH of 5.5-6.5 is recommended for the fabric. This product may be used on fabric that contacts meats or poultry products directly or indirectly, provided that the fabric is thoroughly rinsed with potable water at the end of the laundering operation.

PACKAGING

This product is available in 5 gallon pails (057617) and 15 gallon drums (057619).
