Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. It is also available on our website or from the distributor.

PRODUCT DIRECTIONS

EQUIPMENT TO USE

Recommended automatic liquid laundry injection system.

DIRECTIONS TO USE

USE DILUTION: Concentration varies due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs. **DO NOT MIX WITH ANYTHING BUT WATER.** 1. Pre-sort laundry prior to wash. 2. Pre-soak and/or pre-spot laundry when necessary. 3. Place proper amount of soiled fabric into laundry machine. 4. In wash cycle, feed microTECH Break and microTECH Suds or feed microTECH Combo. 5. When bleaching, feed microTECH Destainer or microTECH Liquid Oxygen Bleach. 6. When souring use microTECH Liquid Laundry Sour and Rust Remover. A final pH of 5.5-6.5 is recommended for the fabric. 7. Add 3-5 ozs. of microTECH Liquid Laundry Size per 50 lbs. of fabric to the machine at the beginning of the final rinse cycle. Be sure to allow the machine to fill with water before adding the product.

MicroTECH Liquid Laundry Size should be in contact with the fabric for 3-5 minutes. Water temperatures should be 90°-110°F for best results.

PACKAGING

This product is available in 5 gallon pails (5388198).
