

SOLID OPPORTUNITIES

Solid Technology adds convenience, safety and performance to any food or laundry service operation. It prevents direct contact with product during use or when replacing empty canisters.

Our line of solid warewashing detergents and presoak have fast-acting, long-lasting ingredients that ensure sparkling clean results in a variety of water and operating conditions. Our solid laundry detergent contains fast acting oxygen bleach and oxy boosters that lifts stains quickly leaving laundry fresh and clean.

From pot and pan washing, high and low temperature dishmachine operations to stained clothing, U S Chemical offers a complete line of solid dishmachine, laundry and specialty products to meet your needs.

Let U S Chemical show you how these products can enhance your operations. To get more information about these products, contact your U S Chemical representative today.

MECHANICAL WAREWASHING

SOLID DISH MACHINE DETERGENT 077708 - 4/8 lb.

Solid Dish Machine Detergent is a heavy-duty detergent packed with water conditioners. It works well in hard water areas of up to 20 grains of hardness and will sequester the minerals in water that cause lime scale build-up and prevents the re-deposition of soil on dishware.

E³ LAUNDRY DETERGENT 077707 - 2/6 lb.

E3 is a non-caustic, oxygen bleach laundry detergent that contains multiple enzymes in its formula. This allows for a broad range of soil stains to be removed. With effective detergents and enzymes combined with a low temperature oxygenated bleaching process, both washing and bleaching can happen in the same wash cycle.

MANUAL WAREWASHING

FREEDOM SYSTEM™ SOLID CRYSTAL 057700 - 2/6 lb.

Solid Crystal is lemon fresh solid pot and pan detergent designed exclusively for use in the Freedom System™ Specialties dispenser. This high-sudsing product works great in hard or soft water. It has superior soil-suspending and grease-cutting ability, leaving manually washed ware sparkling clean.

FREEDOM SYSTEM™ SOLID MARQUIS 057701 - 2/6 lb.

Solid Marquis is a fresh-scented solid utensil presoak designed exclusively for use in the Freedom System™ Specialties dispenser. This moderate sudsing ware-washing detergent works great in hard or soft water. It has superior wetting ability and provides excellent removal of hardened soils prior to washing.
