Phosphorus content : Not over 11.0%
Approvals : cRc

IMPORTANT

Read and understand the label and Material Safety Data Sheet (MSDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The MSDS is provided with each container shipped. It is also available on our website or from the distributor.

PRODUCT DIRECTIONS

EQUIPMENT TO USE

Presoak arch or hand wand.

DIRECTIONS TO USE

Mix a 25 pound box of Super Kleen II to 50-55 gallons of water. Meter this solution 5 - 8 parts water to 1 part solution for presoak applications. For high pressure applications, dilute solution as needed to obtain desired cleaning results. Always fill mixing container half full of water first. If possible use warm soft water when mixing. Add powdered product, mix thoroughly and add remaining water. Apply the diluted solution through a presoak arch or hand wand at low pressure (40 to 90 PSI). In high pressure applications apply at 800 to 1500 PSI.

PACKAGING

This product is available in 25 pound boxes (063439).
