IMPORTANT

Read and understand the label and Material Safety Data Sheet (MSDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The MSDS is provided with each container shipped. It is also available on our website or from the distributor.

PRODUCT DIRECTIONS

EQUIPMENT TO USE

CTA (on line automatic chemical tire applicator only).

DIRECTIONS TO USE

USE DILUTION: Mix one box (50 lb) of product to 55 gallons of water. First fill mixing container half full of water, then add product and mix thoroughly. Add remaining water. Dilute 2 to 5 parts soft water to one part solution. Do not apply this product to custom wheels or rims. Apply the diluted solution to whitewalls using a CTA (on line automatic chemical tire applicator only). TIRES AND RIMS MUST BE WET.

PACKAGING

This product is available in 50 pound boxes (063472).
