U S Chemical

Green has always been our philosophy

Companies big and small are suddenly proclaiming that they have a new selection of products that fulfill someone's definition of green. At U S Chemical we believe that "GREEN" is a continual commitment to our customers and the environment, not just the sudden development of a few selective products. Environmental concern is the philosophy by which we have been doing business for the past 50 years.

All of U S Chemical's products are made to the highest standards. Our plant is ISO 9001 and 14001 certified. These certifications guarantee that efficient and sound environmental procedures are followed. This not only guarantees the consistent quality of our products, but also insures compliance of state and federal regulations.

Our commitment to sustainability is evident throughout our product line which includes post consumer corrugate, 100% recyclable bottles and canisters, a Safer Choice and Green Seal® approved product offering highly concentrated formulas, which require less packaging and freight and a complete line of High Efficiency (HE) laundry products.

WAREWASH

miniMAX Manual Utensil Presoak

Manual Utensil Presoak is a highly concentrated product designed for presoaking silver and stainless steel utensils. At 1 ounce to 5 gallons of water, its excellent soil-penetrating and softening abilities quickly loosen dried-on or hardened foods.

4954864 - 2/3100 mL

WAREWASH

Ultra Active® Presoak 2

Presoak 2 is highly concentrated product designed for presoaking silver and stainless steel utensils. Its excellent soil-penetrating and softening abilities quickly loosen dried-on or hardened foods. Available in 100% recyclable, 2/1500 mL containers.

064871 - 2/1500 mL

WAREWASH

miniMAX Phenom X Manual Pot & Pan Detergent

Phenom X is a highly concentrated, superior performing product. At 1 ounce to 15 gallons of water, Phenom X will quickly cut through the heaviest amounts of grease and fat while providing long lasting suds. It provides food service personnel with a quick, yet extremely efficient way to wash heavily soiled dishware. Savings and cost reductions are realized when using Phenom X with every wash.

5004001 - 2/3100 mL

WAREWASH

miniMAX Manual Pot & Pan Detergent

Manual Pot & Pan Detergent is a top quality, lemon scented liquid detergent designed for food service and manual cleaning needs. It may be used on dishes, glasses, silverware, pots, pans and utensils. It is kind to hands and works well in both hard and soft water conditions. It is a fine grease cutter, gives long lasting suds, excellent soil suspension and rapid free rinsing for fast drying.

4954821 - 2/3100 mL

WAREWASH

U S Chemical Aqua-Foam™

At 1 ounce to 15 gallons of water, Aqua-Foam will quickly cut through the heaviest amounts of grease and fat while providing long lasting suds. It provides food service personnel with a quick, yet extremely efficient way to wash heavily soiled dishware. Long term labor savings and cost reductions are realized when using Aqua-Foam with every wash.

057581 - 4/1 gallon
057587 - 2.5 gallon
057583 - 5 gallon

WAREWASH

U S Chemical Fiesta

Fiesta is a fine liquid pot 'n pan detergent for use in food service areas. At 1 ounce to 1 gallon of water, it will eliminate those unwanted food soils, such as grease, oil and fat that are commonly found on soiled kitchenware. This mild product is gentle on hands and provides a clean, fresh scent, long lasting suds and spotless kitchenware, wherever used.

057478 - 4/1 gallon
057480 - 5 gallon

WAREWASH

Ultra Active® Pot n' Pan 1

Pot n' Pan 1 is highly concentrated, superior performing product. It quickly cuts through the heaviest amounts of grease and fat while providing long lasting suds. This product provides food service personnel a quick, efficient way to wash heavily soiled dishware, providing labor savings and cost reduction. Available in 100% recyclable, 2/1500 mL containers.

Glass & Surface Cleaner is a pH neutral and non-corrosive glass cleaner. It can be used on glass as well as many other water washable surfaces such as chrome, stainless steel, sinks, counter tops and bathroom surfaces. Surety Glass & Surface Cleaner leaves surfaces streak free, wipes clean and dries quickly.

4617657 - 2/1500 mL
5018234 - 2/3100 mL
5492198 - 4/64 ounce
4421443 - 4/1 gallon

HOUSEKEEPING

Surety™ Neutral Cleaner

Neutral Cleaner is formulated with a detergent system that provides the performance of a general purpose cleaner, without alkalinity or solvents. This product is pH neutral so it won't damage or dull the shine of the floor finish. It is safe for use on most floor types and washable surfaces. It does not require rinsing on non-food contact surfaces and can be used in buckets, spray bottles or in automatic scrubbing machines.

4617737 - 2/1500 mL
5018955 - 2/3100 mL
5491697 - 4/64 ounce
4422024 - 4/1 gallon
4422067 - 5 gallon

HOUSEKEEPING

U S Chemical Floorbac™

Floorbac is surfactant cleaning technology combined with enzyme producing bacteria effectively cleans the top surface of the floor, while leaving behind grease eating bacteria that digest build-up in porous tiles and grout. Continuous use of Floorbac will reduce slip and fall accidents.

3041220 - 2/1 gallon

*This product meets Green Seal® Standard GS-37 based on effective performance, concentrated volume, minimized/recycled packaging and protective limits on: VOCs and human & environmental toxicity. GreenSeal.org.

HOUSEKEEPING

U S Chemical Freezer Cleaner

Freezer Cleaner is specially designed for cleaning walk-in freezers. It provides effective cleaning in sub-zero temperatures, eliminating costly freezer shut down. It is institutional strength, saving time and labor. This product is non-corrosive and ready to use for safety and convenience.

057717 - 4/1 gallon

HOUSEKEEPING

Surety™ Tub & Tile Cleaner

Tub & Tile Cleaner is a non-corrosive, mild acid restroom cleaner. It is an excellent daily use cleaner to remove all types of soils from restroom fixtures, tiles, shower doors and any other water washable surface. With regular use, this product will help control hard water scale and soap scum that can result from minerals in the water. Surety Tub & Tile Cleaner promotes sheeting action. Bathroom fixtures will dry spot free and sparkling.

5018576 - 2/3100 mL
5492278 - 4/64 ounce

HOUSEKEEPING

U S Chemical Tub & Tile Cleaner

Tub & Tile Cleaner is an environmentally friendly, non-corrosive, mildly acidic restroom cleaner. It may be used daily to remove soils from restroom fixtures, tiles, shower doors and any other water washable surface. With regular use, this product will help control hard water scale and soap scum that can result from minerals in the water. Its sheeting action helps water run off vertical surfaces without beading, leaving a streak-free finish. Bathroom fixtures will dry spot free and sparkling.

5598890 - 4/1 gallon

HOUSEKEEPING

Indulgence™ Foaming Hand Soap

This product is a foaming hand soap that features Aloe and Vitamin E. It is red in color and has a fruity floral fragrance. It will eliminate a wide variety of germs while being gentle on hands.

4327414 - 4/1000 mL

LOGO EXPLANATION

Green Seal® Certified

Green Seal works with manufacturers at all levels to “green” the production and purchasing chain. They utilize a life-cycle approach, which means they evaluate a product or service beginning with material extraction, continuing with manufacturing and use, and ending with recycling and disposal. Products only become Green Seal certified after rigorous testing and evaluation, including on-site plant visits.

When a product becomes Green Seal certified it means that the product has been tested according to science-based procedures, that it works as well or better than others in its class and that it has been evaluated without bias or conflict of interest. The Green “Seal of Approval” has come to stand for reliability, fairness, and integrity.

The Green Seal provides a business advantage for it identifies a product as environmentally preferable, provides third-party corroboration of environmental claims, and distinguishes a product from competitors that can’t support their environmental assertions. The Green Seal may be used on packaging, in promotional material, in catalogs, and in advertising for products that have been certified to meet the applicable standard.

Safer Choice

Finding products that are safer for you, your family, and the environment should be easy—that’s why EPA created the Safer Choice label. The Safer Choice label helps you identify products with safer chemical ingredients, without sacrificing quality or performance. When you see a product with the Safer Choice label, it means that every ingredient in the product has been evaluated by EPA scientists. Only the safest ingredients are allowed in products with the Safer Choice label.

The Safer Choice Program, formerly known as the Design for the Environment (DfE) Safer Product Labeling Program, was developed in 1997 and draws upon chemical and environmental expertise from across EPA. Safer Choice uses the technical tools and expertise of EPA’s New Chemicals Program to evaluate the environmental and human health impacts of every chemical ingredient in a product, allowing only the safest ingredients in labeled products. As a voluntary partnership program, Safer Choice brings all interested parties together to advance sustainability in chemical products.

Safer Choice encourages manufacturers to reach a high bar to create safer products. To qualify for the Safer Choice label, products must meet the Safer Choice Standard and the appropriate Criteria for Safer Chemical Ingredients, available at: www2.epa.gov/saferchoice/standard. The program develops and continually improves its criteria through a multi-stakeholder process. The program’s technical committees include members of the chemical industry, product manufacturers, environmental and health advocates, and academics who inform the process and advance safer formulations.

Readily Biodegradable Surfactants

The Readily Biodegradable Surfactants symbol reflects that the product has changed to incorporate biodegradable surfactants, replacing alkylphenol ethoxylates (APEO’s).

APEO’s are non-ionic surfactants with an emulsifying and dispersing action, which makes them suitable for a very large variety of applications.

Surfactants are used in a variety of applications including fabric cleaners, hard surface cleaners, and other detergent formulations. The term “surfactant” means “surface active agent”. Many surfactants give rise to environmental concerns due to their poor biodegradability, their toxicity and their potential to act as endocrine disruptors.
