

# SOLID MECHANICAL WAREWASH DETERGENT

## FEATURES

- Metal safe
- Water conditioners
- Versatile

## BENEFITS

- Safe on soft metals such as aluminum
- Excellent scale inhibiting properties
- For high or low temperature washing

## RECOMMENDED USES

For institutional use only.

## SPECIFICATIONS

**Color** : White  
**Scent/Odor** : None added  
**Character** : Opaque Solid  
**Foam** : Non-foamer

**pH use dilution** : 11.1  
**Phosphorus content** : Not over .5%  
**Approvals** : Safer Choice

## IMPORTANT

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. It is also available on our website or from the distributor.

## PRODUCT DIRECTIONS

### EQUIPMENT TO USE

This product should be dispensed only from equipment designed specifically to handle solid capsule product.

### DIRECTIONS TO USE

Remove cap from container. Invert canister so that open surface is pointing downward into dispenser. Do not get product on hands or into eyes. Turn machine on so that water will feed the dispenser unit and dissolve product into the dish washing machine. Water feeding the dispenser unit should not exceed 140°F. Maximum results are obtained when wash temperature is maintained at 145-155°F. If water temperatures are too low, fat soils are not softened and cleaning efficiency will decrease. If water is too hot, soils may become flash dried to the kitchenware, thus making it more difficult to remove.

## PACKAGING

This product is available in 4/8 pound canisters (5344793).
