

# Nexus™ Sour/Soft

## Combination Neutralizer and Softener

Nexus™ Sour/Soft is a liquid, cationic fabric softener for all types of laundry operations. Combined with a souring agent to neutralize the alkaline residues of detergents, water hardness minerals or iron in the rinse cycle of laundry programs, it can be used in any type of automatic laundry chemical feeding system. This product is highly concentrated to provide fluffy and soft fabric while preventing fabric harshness, excess wear and browning during ironing. It reduces the pulling and extraction time of loads, eliminates static and reduces sticking.

### Specifications

<b>Color</b>	Purple

### Directions For Use

**Equipment:** Nexus™ Sour/Soft is designed to be used only through the exclusive Nexus™ Laundry Dispensing System.

**Use Dilution:** Concentration varies due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs.

1. Pre-sort laundry prior to wash.
2. Pre-soak and/or pre-spot laundry when necessary.
3. Place proper amount of soiled fabric into laundry machine.
4. In wash cycle, inject Nexus™ Break and Nexus™ Suds.

5. When bleaching, inject Nexus™ Destainer or Nexus™ Oxygen Bleach. When souring and softening, inject Nexus™ Sour/Soft or Nexus™ Sour and Nexus™ Softener.

A final pH of 5.5 - 6.5 is recommended for the fabric.

\*This product can be used in all water temperatures. Your Chemical Specialist will adjust product concentrations based on results.
