#### Directions For Use

**General Cleaning and Deodorizing:** Spray soiled area then wipe clean. Repeat for visibly soiled areas.

**Disinfection:** Preclean prior to disinfection. Spray 6 - 8 inches from surface, until surfaces are thoroughly wet. Do not breathe spray. Treated surfaces must remain wet for 1 minute for disinfection against bacteria. Follow virucidal or fungicidal directions when using as a virucidal or fungicidal agent. Wipe dry with a clean cloth, sponge, mop or wiper or allow to air dry. Food contact surfaces must be rinsed with potable water after disinfection. Do not use on utensils, glassware and dishes.

**Virucidal\*:** Follow disinfection directions for application instructions. Treated

surfaces must remain wet for 10 minutes for Herpes Simplex Type 2 and 1 minute for Influenza A/Hong Kong.

**Mold and Mildew Control Directions:** This product effectively inhibits the growth of mold and mildew and the odors caused by them when applied to hard, nonporous surfaces. Follow disinfection instructions. Allow to air dry on surface. Repeat every seven days, or when mold or mildew growth returns.

**Non-Acid Toilet Bowl and Urinal Cleaner Directions:** Apply this product to exposed surfaces including under the rim with a sprayer. Use a toilet brush to scrub the bowl. Repeat and allow to stand for 1 minute, then flush.

#### Safety Reminder

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is available on our website at [www.uschemical.com](http://www.uschemical.com) and is also available by scanning the QR code on the label.

Check with USC regarding product availability and product registration status in your state. Contact your sales rep for more information.
