

# SHURGUARD PLUS Technical Data Sheet

EPA Reg. No. 1839-86-7546

EPA Est. No. 7546-WI-01

## **FEATURES**

- Quat based
- · Excellent rinsability
- Mild to hands
- Concentrated
- No-rinse formulation

#### **RECOMMENDED USES**

Third tank sink or anywhere an effective quaternary sanitizer is needed.

#### **SPECIFICATIONS**

- Colorless
- No scent/Quat
- Clear, non-viscous liquid
- Low foam

## **IMPORTANT**

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. The SDS is also available on our website or from the distributor.

# **PRODUCT DIRECTIONS**

#### **EQUIPMENT TO USE**

MixMATE<sup>™</sup> Sanitation System, appropriate MixMATE<sup>™</sup> spray bottle or pail and mop, sponge, cleaning cloth, bowl mop, scrub brush, rubber gloves, eye protection and protective clothing.

#### **DIRECTIONS TO USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

*Disinfection -* To disinfect inanimate, hard non-porous surfaces apply use-solution with mop, cloth, sponge, low pressure coarse sprayer or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use. Surfaces which may contact food must be rinsed thoroughly with potable water after use. For low pressure coarse sprayer and hand pump trigger sprayer applications, spray 6-8 inches from the surface; rub with brush, sponge or cloth. Do not breathe spray. NOTE: For spray applications, cover or remove all food products.

*General Disinfection -* Add 3 ounces of this product per 5 gallons of water for disinfection against Staphylococcus aureus, Salmonella enterica, Listeria monocytogenes, and Yersinia enterocolitica.

**Sanitize -** pre-cleaned and potable water-rinsed, non-porous public eating establishment food contact surfaces: prepare a 200-400 ppm active quaternary solution by adding 1-2 ounces of this product to 4 gallons of water, 2.5-5 ounces to 10 gallons of water, or 5-10 ounces to 20 gallons of water (or equivalent dilution). Immerse in a 200 to 400 ppm active quaternary solution for at least 60 seconds, make sure to immerse complete. Remove, drain the use-solution from the surfaces and air dry. Do not rinse.

## PACKAGING

This product is available in 2/3100 mL canisters (4379290) and 2/1 gallons (063062)).

Check with U S Chemical regarding availability and product registration status in your state.

See product Reference Sheet or container label for more information.

• 7.0-8.0 pH use dilution

**BENEFITS** 

Fast drying

•

Long lasting effectiveness

Employee acceptance

Saves time and labor

Economical to use

- Contains no phosphorus
- $\bullet$  cRc, EPA, NSF D2
