**Phosphorus content** : 0.0%  
**Approvals** : None

### IMPORTANT

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. It is also available on our website or from the distributor.

### PRODUCT DIRECTIONS

#### EQUIPMENT TO USE

Trigger sprayer, buffing machine and appropriate pad.

#### DIRECTIONS TO USE

NOTE: Floors will be slippery when wet or contaminated with foreign materials. Promptly clean up spills and foreign materials. PREPARATION: Before spray buffing, the floor surface should be clean and dry. Remove loose soils by dry mopping, and attached soils by damp mopping. PROCEDURE: For low speed buffing machines, apply Style to a small area. Use a trigger sprayer or other suitable dispensing device. Do not allow solution to dry on floor. Spread evenly over surface using the floor machine equipped with a red (or equivalent) buffing pad. Return on a second pass to clean and remove marks. The third pass will buff the floor up to a renewed gloss and appearance. For high speed buffing machines, use the solution sparingly. A fine mist spray is all that is needed. For use only with rotary buffing machines on commercial floor finishes.

### PACKAGING

This product is available in 12/1 quart cases (065629).
