| 057457 | 5 gallon pail |
| 057459 | 15 gallon drum |

Directions For Use

Equipment: Recommended automatic liquid laundry injection system.

Use Dilution: Concentration varies due to environmental conditions. Your sanitation specialist will properly adjust product concentration to meet your needs.

1. Pre-sort laundry prior to wash.
2. Pre-soak and/or pre-spot laundry when necessary.
3. Place proper amount of soiled fabric into laundry machine.
4. In wash cycle, feed this product.
5. When bleaching, feed a recommended liquid laundry bleach into the laundry machine.
6. When souring and softening in the final rinse cycle, feed a recommended sour and softener into the laundry machine. A final pH of 5.5-6.5 is recommended for the fabric.

*This product is compatible with ozone laundry systems.

*This product can be used in all water temperatures. Your chemical specialist will adjust product concentrations based on results.
