

# Liquid Sour & Soft Plus

## Concentrated Fabric Softener and Sour

Liquid Sour & Soft Plus concentrated fabric softener and sour is combined into a single, convenient liquid product. It efficiently neutralizes fabric alkalinity while softening the fabric. It is specially designed for use in institutional applications in which water conditions allow for the use of a combination product. A special fragrance leaves finished linens smelling fresh and clean. It minimizes static charge build up on linens and ensures proper pH of finished linens. Not for use on VISA® linen.

### Specifications

<b>Color</b>	Light blue
<b>Scent/Odor</b>	Floral
<b>Character</b>	Slightly viscous, opaque liquid
<b>Foam</b>	Low
<b>pH Use Dilution</b>	5.5 - 6.5
<b>Phosphorus Content</b>	0.0%
<b>Approvals</b>	None
<b>Water Temperature</b>	All

### Pack Sizes

<b>4435546</b>	5 gallon pail
<b>4435597</b>	15 gallon drum

### Directions For Use

**Equipment:** Recommended automatic liquid laundry injection system.

**Use Dilution:** Concentration varies due to environmental conditions. Your sanitation specialist will properly adjust product concentration to meet your needs.

1. Pre-sort laundry prior to wash.
2. Pre-soak and/or pre-spot laundry when necessary.
3. Place proper amount of soiled linen into laundry machine.
4. In wash cycle, inject a recommended liquid laundry break and a recommended liquid laundry detergent or inject Combo®.
5. When bleaching, inject a recommended liquid laundry bleach.
6. When souring and softening in the final rinse cycle, inject this product.  
A final pH of 5.5-6.5 is recommended for the fabric.

\*This product can be used in all water temperatures. Your chemical specialist will adjust product concentrations based on results.
