

Handy Man

Drain Cleaner and Opener

Handy Man is a liquid drain cleaner for use in opening clogged drains and keeping them open. Simply pour it directly from the plastic bottle into the drain. This highly active product goes to work at once on grease, lint and other organic wastes which clog drains. It dissolves the clog into a “soft-soap” which is easily flushed away when the drain opens. This product should be used regularly in “slow” drain systems to keep them in service.

Specifications

Color	Colorless
Scent/Odor	None added
Character	Clear, non-viscous liquid
Foam	Non-foamer
pH Use Dilution	Greater than 13.0
Phosphorus Content	0.0%
Approvals	cRC

Pack Sizes

057149	12/1 quart case
---------------	-----------------

Directions For Use

Equipment: None needed.

Use Dilution: Full strength. See directions.

Stopped Drains: Pour about 1/2 bottle into drain. Wait 30 minutes. If still clogged, use a plunger. Repeat if necessary. Plugged basement drains require 3-4 quarts and should soak overnight.

Slow Drains: Pour about 1/4 bottle directly into drain. Wait 30 minutes or overnight. DO NOT run water while this product is working.

NOTE: Use once a week in open drains for preventive cleaning. DO NOT splash solution on hands, skin or in eyes.

Safety Reminder

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is available on our website at www.uschemical.com and is also available by scanning the QR code on the label.
