

## Lemon Cleaner Disinfectant

## **Technical Data Sheet**

Lemon Cleaner Disinfectant is a multi-purpose, neutral pH, germicidal detergent and deodorant effective in hard water up to 200 ppm (calculated as CaCO3) in the presence of a moderate amount of soil (5% organic serum) according to the AOAC Use-dilution Test. Its triple duty performance disinfects, cleans, and deodorizes in one labor-saving step. Its special formula kills type 1 (HIV-1) (associated with AIDS).

| Specifications     |                           |
|--------------------|---------------------------|
| Color              | Yellow                    |
| Scent/Odor         | Lemon                     |
| Character          | Clear, non-viscous liquid |
| Foam               | Moderate                  |
| pH Use Dilution    | 7.0 - 8.0                 |
| Phosphorus Content | 0.0%                      |
| Approvals          | cRc                       |
| Registrations      | EPA                       |
| Pack Sizes         |                           |
| 057668             | 4/1 gallon case           |
| 100922401          | 55 gallon drum            |

## **Directions For Use**

 $\textbf{Equipment:}\ \mbox{Pail}\ \mbox{and}\ \mbox{mop,}\ \mbox{sponge,}\ \mbox{cleaning cloth,}\ \mbox{spray bottle,}\ \mbox{appropriate}\ \mbox{measuring device.}$ 

**Use Dilution:** 1:64 2 OUNCES PER GALLON OF WATER (660 ppm quat)

This product is not for use on medical device surfaces.

**DISINFECTION/CLEANING/DEODORIZING DIRECTIONS:** Remove heavy soil deposits from surface, then thoroughly wet surface with a use-solution of 2 ounces of the concentrate per gallon of water. The use-solution can be applied with a cloth, mop, sponge, or coarse spray or by soaking. For sprayer applications, use a coarse spray device. Spray 6-8 inches from the surface, rub with a brush, cloth or sponge. Do not breathe spray. Let solution remain on surface for a minimum of 10 minutes. Rinse or allow to air dry. Food contact surfaces must be thoroughly rinsed with potable water. This product must not be used to clean the following food contact surfaces: utensils, glassware and dishes.

**For Human Coronavirus** treated surfaces must remain wet for 1 minute. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

**For Influenza Virus Type A** treated surfaces must remain wet for 2 minutes. Wipe dry with a clean cloth, sponge or mop or allow to air dry.

Prepare a fresh use-solution daily or more often if the solution becomes visibly dirty or diluted.

**FUNGICIDAL DIRECTIONS:** For use in areas such as locker rooms, dressing rooms, shower and bath areas and exercise facilities, follow disinfection directions.

## Safety Reminder

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is available on our website at www.uschemical.com and is also available by scanning the QR code on the label.

Check with U S Chemical regarding product availability and registration status in your state. See product Reference Sheet or container label for more information.
