Liquid Oxygen Bleach

Hydrogen Peroxide Solution

Liquid Oxygen Bleach is a blend of oxygen bleaching agents specially formulated for use on synthetic fabrics and colored laundry, and may be used safely with enzyme presoaks or regular laundry detergents. Its exceptional mildness allows it to be added to the laundry during the filling operation. It can be used in all temperatures, but hot solutions do the best job of bleaching and cleaning.

Specifications

Color	Colorless
Scent/Odor	Pungent (none added)
Character	Clear, non-viscous liquid
Foam	Non-foamer
pH Use Dilution	6.0 - 6.5
Phosphorus Content	0.0%
Approvals	cRc, NSF B1

Pack Sizes

057394	5 gallon pail
---------------	---------------

Directions For Use

Equipment: Recommended automatic liquid laundry injection system.

Use Dilution: Concentration varies due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs.

1. Pre-sort laundry prior to wash.
2. Pre-soak and/or pre-spot laundry when necessary.
3. Place proper amount of soiled fabric into laundry machine.
4. In wash cycle, feed a recommended liquid laundry break and a recommended liquid laundry detergent.

5. When bleaching, feed this product into the laundry machine.
6. When souring and softening, feed a recommended liquid sour and softener into the laundry machine. Works best in the final rinse cycle. A final pH of 5.5-6.5 is recommended for the fabric.

This product is compatible with ozone laundry systems. This product may be used on fabric that contacts meats or poultry products directly or indirectly, provided that the fabric is thoroughly rinsed with potable water at the end of the laundering operation.
