

# Non-Acid Bowl Cleaner

## Bowl and Bathroom Cleaner

Non-Acid Bowl Cleaner is a concentrated product for cleaning and deodorizing hard, non-porous bathroom surfaces such as toilet bowls, shower stalls, walls, tile, sinks and fixtures. Non-Acid Bowl Cleaner is safe to use on all bathroom surfaces. This formula also contains chelating agents to help reduce problems caused by hard water. An effective cleaner and deodorizer for daily use.

### Directions For Use

**Equipment:** Cleaning cloth, soft brush, sponge, bowl mop.

To clean and deodorize hard non-porous surfaces such as toilet bowls, bathroom tiles, fixtures, shower stalls, walls, and sinks, proceed as indicated below:

1. To clean toilet bowls, remove water from bowl by forcing over trap with applicator. Remove excess water from applicator by pressing it against the side of bowl. Pour 1 ounce on applicator. Clean entire unit, especially under rim at water outlets. Flush and rinse out applicator.
2. Hold container six to eight inches from surface to be treated. Spray area until it is covered with the solution. Allow the product to penetrate. No scrubbing necessary.

3. Wipe off with a clean cloth, mop, or sponge. The product will not leave grit or soap scum. For heavily soiled areas, remove gross soil before treatment. To control odors from mildew on hard non-porous surfaces (such as floors, walls, table tops), spray the surfaces to be treated, making sure to wet completely. Let air dry.
