

# Powdered Presoak Plus

## Encapsulated Flatware Presoak

Powdered Presoak Plus is an encapsulated powder presoak suitable for loosening food soils and detarnishing silver. It contains a blend of detergents and enzymes to safely loosen soil without attacking metal or dishware. Encapsulated system provides controlled dosing and eliminates waste or over-use.

### Directions For Use

**Equipment:** Plastic bus pan, measuring device

**Use Dilution:** 1.5 ounce per gallon for light duty, 3.0 ounce per gallon for heavy duty.

1. If silver plated flatware is being detarnished, line the bus pan or pail with aluminum foil.
2. Dispense solution of product and warm 100° to 120° water into a bus pan or bucket.
3. Place flatware, utensils, or other ware in presoak solution for 15-30 minutes.
4. Remove items from presoak solution, place in racks for dishmachine, and rinse thoroughly with overhead sprayer. Do not pour presoaking solution into dishmachine as it will cause foaming.
