

Stalwart

Powdered, Chlorinated Detergent

Stalwart is a mechanical dishwashing detergent designed for efficient cleaning of all types of dishware, utensils, pots and pans. This product provides positive cleaning action without the use of harsh caustic. It is a chlorinated detergent for exceptional stain control, protein soil removal and rinsability. Stalwart is fortified to work well in hard or soft water and keeps dishmachines clean and film free.

Directions For Use

Equipment: Recommended warewash dispensing system.

Use Dilution: Concentration varies due to environmental conditions. Your sanitation specialist will properly adjust product concentration to meet your needs.

Warewashing:

1. Pre-flush and/or scrape dishes before washing.
2. Rack dishes properly. Place dishes in machine.
3. Wash using this product. Should maintain 150°-160°F wash temperature.
4. For rinse cycle, use recommended rinse additive. Should maintain 180°-190°F rinse temperature.
5. Allow dishes to air dry.

Soft Ice Cream Machines: IMMEDIATELY AFTER USE:

1. Drain mix from machine.
2. Turn off refrigeration.
3. Place 2 1/2 gallons of warm water in mix hopper.
4. Brush hopper and draw warm water into machine. Circulate for 2 minutes.
5. Drain and discard warm water.
6. Close valve and place 2 1/2 gallons of warm water in mix hopper.
7. Add 1/4 cup Stalwart. Brush hopper and draw solution into machine.
8. Drain solution.
9. Rinse interior of machine with clean water.
10. Sanitize using recommended sanitizer.

NOTE: For machine parts, clean using recirculation detergent as needed with a brush. Rinse parts and store on a clean surface to air dry.
