Directions For Use

Equipment: Recommended automatic liquid laundry injection system.

Use Dilution: Concentration varies due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs.

1. Pre-sort laundry prior to wash.
2. Pre-soak and/or pre-spot laundry when necessary.
3. Place proper amount of soiled fabric into laundry machine.
4. In wash cycle, inject a recommended liquid laundry break and a recommended liquid laundry detergent or inject a recommended break and suds.
5. When bleaching, feed a recommended liquid laundry destainer.
6. When softening and souring in the final rinse cycle, inject this product and a recommended sour.

A final pH of 5.5-6.5 is recommended for the fabric.

*This product can be used in all water temperatures. Your chemical specialist will adjust product concentrations based on results.
