

USC33

USC33

Heavy Duty Degreaser

USC33 is a non-corrosive degreaser that delivers superior degreasing of hard surfaces. It is designed for cleaning all kitchen surfaces, including floors, counters, working surfaces, ventilator hoods, kitchen equipment and walls. USC33 can be used as a spray and wipe degreaser or may be dispensed into a bucket for wider area cleaning, such as floors. An ultra-concentrate, USC33 can be diluted to provide economical end-use solutions. The fast-acting, unique chemistry of this product gets the cleaning job done in minimal time and ensures a more powerful cleaner is at work at any concentration.

Specifications

Color	Yellow
Scent/Odor	None added
Character	Clear, non-viscous liquid
Foam	High
pH Use Dilution	6.5 - 7.5
Phosphorus Content	0.0%
Approvals	None

Pack Sizes

5488682	4/2 quart case
----------------	----------------

Directions For Use

Equipment: Automatically dispensed at correct dilution rate from the Ultra Easy dispensing system.

Dispense into spray bottle. USC33 should only be sprayed using a foaming trigger sprayer. Use with a clean cloth or sponge. Point the trigger sprayer at surface to be cleaned from a distance of 6 to 8 inches and pump as needed to apply enough foam to be worked over the whole surface. Immediately spread product across the surface. USC33 will begin to loosen soils immediately, but where stubborn soils exist, allow the product to stand for several minutes. Rinse off product with clean water either directly with shower hose, or with moistened cloth or sponge. Ensure no standing water is left on counter tops, floor tiles etc. Note: When cleaning floors position wet-floor signs around area to be cleaned. Floors will be slippery when wet or contaminated with foreign materials. Promptly clean up spills and foreign materials.

Safety Reminder

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is available on our website at www.uschemical.com and is also available by scanning the QR code on the label.
