

# WATERLESS DISPENSING SYSTEM

A system designed to be tough on soils, but not on your budget. No plumbing or electricity is needed and no counter or floor space is required.

**SAFE.** The dispenser is a wall-mounted concentrate dispenser system that conserves space and eliminates the need for heavy buckets. Canisters are conveniently sized and light enough to change quickly and effortlessly. Totally enclosed dispensing prevents exposure to product while dispensing or changing canisters.

**INNOVATIVE.** The canister and pump design allow for complete product usage so nothing is wasted. See-through packaging makes it easy to view product levels, eliminating guesswork. The dispenser design utilizes lever action to dispense, making operation easier.

**COST SAVING.** The dispenser was specifically made to prevent overuse of product. A portion control feature adjusts to your individual needs—any amount from 0 to 1 ounce—for easy calibration. A built-in delay mechanism also eliminates employee waste. One push, and you get the right amount every time!

**EARTH-FRIENDLY.** Because of the innovative packaging, less plastic is required, and they are 100% recyclable. Dispensers can easily be removed from their wall brackets for cleaning.
