

Introducing L3 and L3 + P1 to the  
**FREEDOM SYSTEM FAMILY**

Freedom System L3 + P1

Freedom System L3

**FREEDOM  
SYSTEM**

- **Patented ProbeLogic™ Intelligence**
- **Effortless Programming**
- **Retrieveable Operating Data**
- **Customizable Features to Fit Your Needs!**

## ONE DISPENSER

Every Freedom System™ controller has the same engineering and capabilities built into it. The concept is simple. Choose from temperature probes, product level alarms, display options, product configurations and alarm conditions to fit your customers needs. At any time, any feature can be programmed and/or installed in the field. This allows you to implement one dispenser controller across your entire service network. It has the flexibility that allows it to be tailored to your whole customer base while offering them features and benefits that your competitors can't! ***That's smart, powerful and economical.***

## LESS SERVICE AND BETTER RESULTS

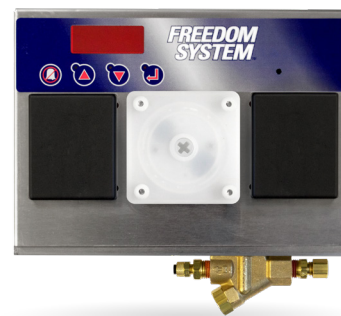

By design, Freedom System™ uses digital technology for dependable, highly accurate and consistent dispensing. It's a powerful tool that provides technicians with better information to reduce service calls while providing dependable dispensing with maximum results.

With Freedom System™, service technicians can view the activity of the dispenser over a period of time, rather than just looking at present conditions. This helps techs diagnose problems faster and minimizes the chances of an issue being overlooked.

## PROBELOGIC™ INTELLIGENCE

Engineered with digital capability, ProbeLogic™ uses a combination of patented software and board design to track every condition of the probe to maximize results at the lowest possible cost. ProbeLogic™ switches from probe to probeless operation in conditions that would normally require a service call. When conditions allow, it will automatically return to probe operation, all without interrupting the operation of the dishmachine.

Freedom System L1 + P1

Unit	SKU	# Pumps	Solenoid
L2	D1228154	2	No
L3	D1228155	3	No
L1 + P1	D1228156	1	Yes
L2 + P1	D1228157	2	Yes
L3 + P1	D1228158	3	Yes

Please see the USC Equipment catalog and price list for more information on the Freedom System units.

## NEW TO FREEDOM SYSTEM™

- New Freedom L3 dispenser with three peristaltic pumps designed to inject liquid detergent, rinse aid and sanitizer.
- New Freedom L3 + P1 dispenser designed with three peristaltic pumps PLUS a solenoid for encapsulated detergent products. Ideal for use in areas where the addition of a fourth product (such as a water conditioner) is needed.
- Added low-level detergent alarm for a third liquid peristaltic pump.
- Programmable to monitor and record rinse water consumption and number of gallons used when the machine is filled.
