

# Liquid Laundry Break

## Alkali Booster

Liquid Laundry Break is a concentrated alkaline break for use in automatic liquid dispensing systems. It can be used to boost cleaning effectiveness in the wash cycle. This product is a concentrated blend of high alkaline detergent builders, emulsifiers, water conditioners, and soil suspension agents. It is designed to be used in combination with a liquid laundry detergent for optimal cleaning efficiency.

### DIRECTIONS FOR USE

**Equipment:** Recommended automatic liquid laundry injection system.

**Use Dilution:** Concentrations will vary due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs.

1. Pre-sort laundry prior to wash.
  2. Pre-soak and/or pre-spot laundry when necessary.
  3. Place proper amount of soiled fabric into laundry machine.
  4. In wash cycle, feed this product and a recommended liquid laundry detergent.
  5. When bleaching, feed a recommended liquid laundry bleach.
  6. When souring and softening, feed a recommended liquid sour and softener. Works best in the final rinse cycle.
- A final pH of 5.5-6.5 is recommended for the fabric.

### SAFETY REMINDER

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is available on our website at [www.uschemical.com](http://www.uschemical.com) and is also available by scanning the QR code on the label.
