

Liquid Laundry Oxygen Bleach

Hydrogen Peroxide Solution

Liquid Laundry Oxygen Bleach is an oxygen bleaching agent specially formulated for use on synthetic fabrics and colored laundry, and may be used safely with enzyme presoaks or regular laundry detergents. Its exceptional mildness allows it to be added to the laundry during the filling operation. This product can be used in all temperatures, but hot solutions do the best job of bleaching and cleaning.

SPECIFICATIONS

Color	Colorless
Scent/Odor	None Added
Character	Clear, non-viscous liquid
Foam	Nonfoamer
pH Use Dilution	6.0 - 6.5
Phosphorus Content	0.01%
Approvals	cRc, Ozone

PACK SIZES

101100092	5 gallon pail
------------------	---------------

DIRECTIONS FOR USE

Equipment: Recommended automatic liquid laundry injection system.

Use Dilution: Concentrations will vary due to environmental conditions and load size. Your sanitation specialist will adjust properly to meet your needs.

1. Pre-sort laundry prior to wash.
 2. Pre-soak or pre-spot laundry when necessary.
 3. Place proper amount of laundry into laundry machine.
 4. In wash cycle, feed a recommended liquid laundry break and liquid laundry suds.
 5. When bleaching, feed Liquid Laundry Oxygen Bleach into the laundry machine.
 6. When souring and/or softening, feed a recommended sour and softener. Works best in the final rinse cycle.
- A final pH of 5.5-6.5 is recommended for the fabric.

NOTE: This product is most effective when used in hot water (150°-160°F).

SAFETY REMINDER

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. It is also available on our website or from the distributor.
