

Liquid Utensil Presoak

Presoak for Silver or Stainlessware

Liquid Utensil Presoak is especially designed for presoaking of silver and stainless steel utensils. Its excellent soil penetrating and softening abilities quickly loosen dried on or hardened foods. When this product is in use, silverware comes out clean after each single trip through the dishwasher.

DIRECTIONS FOR USE

Equipment: Jug pump or wall pump, bus pan.

Use Dilution: 1 ounce to 2 gallons of water. Place stainlessware and/or silverware in solution for several minutes. Remove, rinse thoroughly and wash in dishwasher in normal fashion. If silver plated flatware is being detarnished, line the bus pan or pail with aluminum foil. Dispense solution of product and warm - 100° to 120° F (38° to 49° C) - water. Place flatware or utensils in presoak solution for 15 - 30 minutes. Remove flatware or utensils from presoak solution. Place in dishwasher racks, rinse thoroughly and process.

SAFETY REMINDER

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped. It is also available on our website or from the distributor.
